# Global Club Competition

Internet: [www.global-club.de](http://www.global-club.de)

Dear Friends,

For your benefit, as possible participant in the Global Club Competition, we have gathered some information from hotels in the city and suburbs.

We found many, many hotels but left out those that we would not recommend in the first place. Also the hotels that are above the average budget of a Speed Skating Club have not been excluded from our list. Attached you will find our summary. With regards to Hotelaccomodation for the Global Club Competition the following applies:

- The data we supply here is without any quarantee or double checking
- You must make the reservation for your skaters by yourselves.
- The Organizing Committee only advices.
- The Organizing Committee makes no reservations for hotel and/or other arrangements.

We have indicated the distance between each Hotel and the Icerink EZH. Please note that these distances are not exact.

If you have any questions we will be very happy to answer them and help you where possible.

With sporting regards,

Christel Petzschke  
Organizing Committee
